The Downtown Quartet made its debut in April of 2009 at the world renowned Village Vanguard in NYC. Each member of the quartet is a leader in his own right, and together they co-lead this ensemble melding many years of collective experience into a brand new sound. They are each recognized and celebrated masters whose careers span over 30 years, and have long associations with many of the greatest legends of jazz such as Nancy Wilson, Stan Getz, Chick Corea, Cannonball Adderley, and Dr. Billy Taylor.

Melodious, mischievous, spirited, hard-hitting, subtle, colorful, and just plain fun—are some of the ways to describe an evening with this electrifying group. They are four distinctive luminaries that encompass many different genres. Together they create music that is rooted in the tradition and is yet expansive and adventurous, resulting in a sound that is beyond category.

With each member being an accomplished composer their repertoire highlights their original works, with a dose of jazz standards cleverly reconstructed by the quartet. Their sets are craftily programmed and your audience is sure to walk away feeling exhilarated!
